*Za korišćenje unutar bilo koje cloud platforme
Za ugrađivanje u vaše sopstveno rešenje*

- ▶ **Moćni online urednici** za dokumente, tabele, prezentacije, obrasce, PDF
- ▶ Maksimalna **kompatibilnost** sa MS Office formatima
- ▶ Napredna **bezbednost** (JWT, fleksibilne dozvole, stavljanje vodenog žiga, zaštita lozinkom, E2E enkripcija itd.)
- ▶ Besprekorna **saradnja** (dva režima zajedničkog uređivanja, pregled i praćenje promena, komentari, chat i pozivi u realnom vremenu)

The screenshot displays the ONLYOFFICE Suite interface, which is a web-based office productivity environment. It features several overlapping windows:

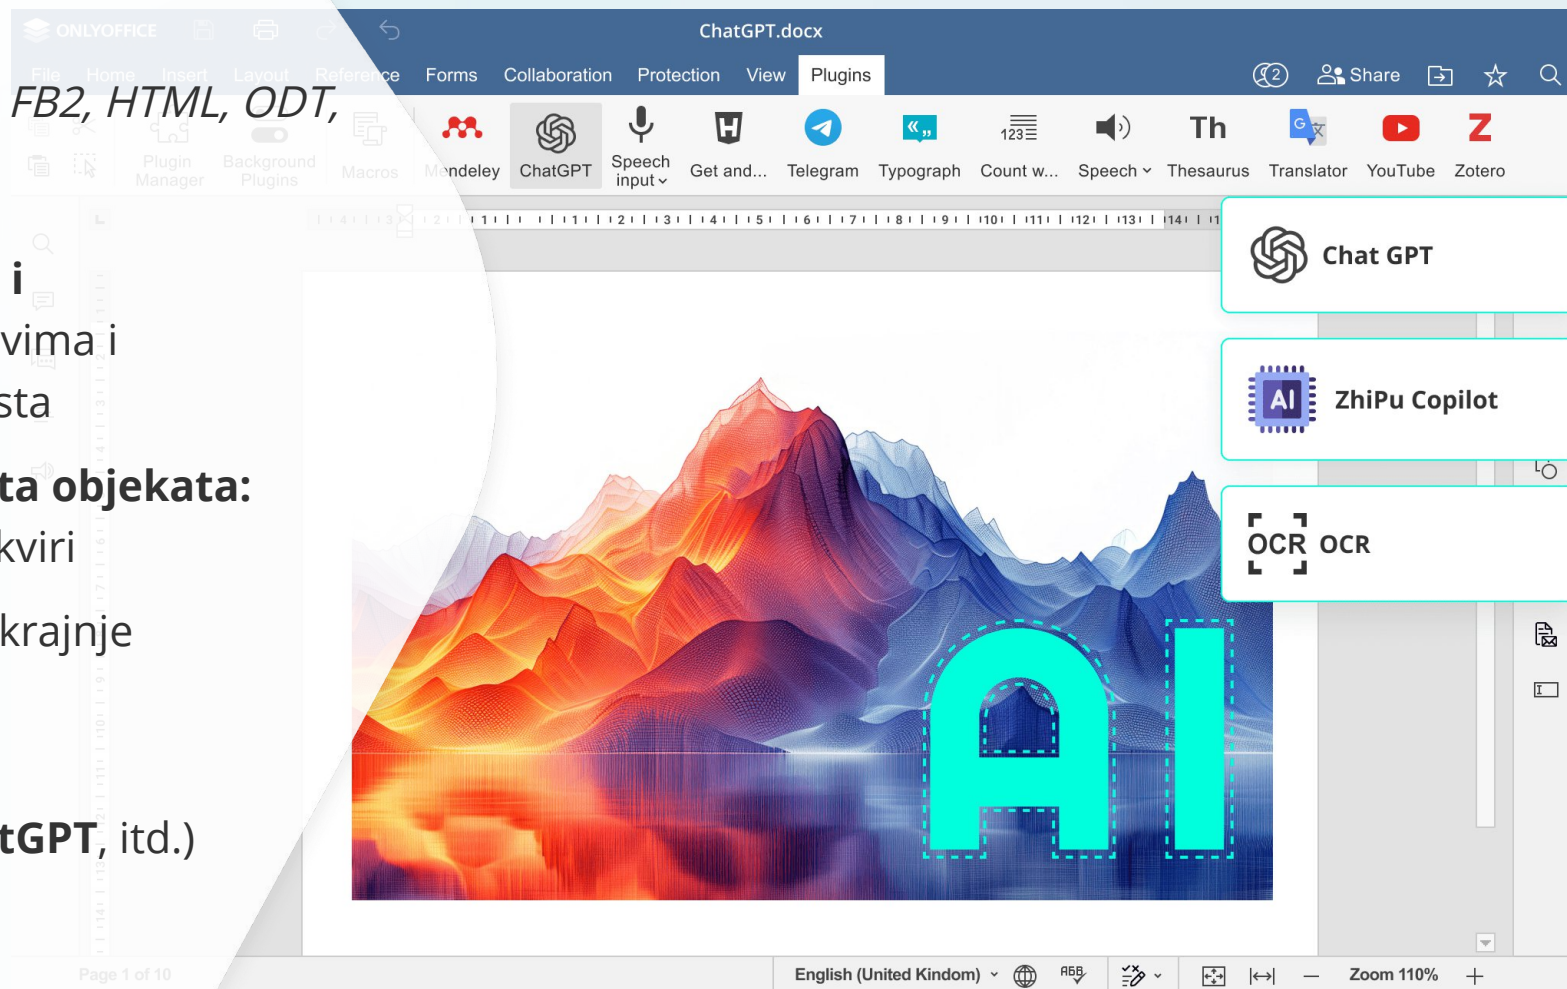

- ONLYOFFICE Spreadsheet Editor:** Shows a standard spreadsheet grid with a toolbar at the top containing various editing and formatting tools.
- ONLYOFFICE Presentation Editor:** Displays a slide titled "NT MARKETING PLAN" with a table showing financial data: Total Gross margin (\$67,988) and Percentage of income spent (84.83%).
- ONLYOFFICE Document Editor:** Shows a document with a rich text editor toolbar and a sidebar with a list of documents.
- ONLYOFFICE PDF:** Displays a PDF document titled "Application Form Postgraduate Certificate" with a "FORM FILLING" callout box. The form includes fields for name, address, and contact information.
- Invoice:** A separate window shows an "INVOICE" for "Brand Name" with a table of items and a "SIGNATURE" callout box over a handwritten signature.

At the bottom right, a chat window shows two participants: Elizabeth Rayen and Henry Milton. The interface includes a zoom control at the bottom right, currently set to 100%.

The screenshot displays the ONLYOFFICE Docs interface. The main window shows a PDF form titled "EURO WALLCHART" for "GERMANY 2024". The form contains several tables for group standings (GROUP A, B, C) and match results (3RD PLACE, FINAL). Each table has columns for teams and match outcomes, with placeholder text "Your text here" and "XX" for data entry. The interface includes a top menu bar with options like File, Home, Insert, Draw, Layout, References, Forms, Collaboration, Protection, View, and Plugins. A right-hand chat window is open, showing a conversation between Samantha Jones, Jason Davis, and Olivia Robinson. The chat messages are: "Sounds a bit pompous, doesn't it?", "Yeah, I agree. Let's make it clearer.", and "Great sentence! I like it. Please don't change anything". Below the chat is an "Add Reply" button and a settings panel for "Allowed symbols" with options like "Fixed size field", "AutoFit", "Multiline field", "Characters limit", "Comb of characters", "Cell width", "Border color", "Background color", "Required", and "Delete". The bottom status bar shows "Page 1 of 1", "Word count", "All changes saved", "English (United States)", and "Zoom 68%".

Lowest Calorie Foods

It's quite obvious, that to lose weight or to keep it low you should eat in moderation and choose low calorie foods. But what foods are really low in calories? To help you get an idea of what you could use to vary your selection of low calorie foods and eat generally more healthy products we compiled the following chart.

FOOD CALORIES TABLE			
SAMPLE	13 KCAL	14 KCAL	15 KCAL
Row #1	Cabbage	Butterbar	Cucumber
Row #2	Lettuce	Gourd	Pumpkin flowers
Row #3	Waxgourd	Radishes	Tomatoes

We took the well known, extensive and authoritative USDA National Nutrient Database for Standard Reference and selected the raw foods with calorie count ranging from 0 kcal to 99 kcal per 100g. As expected, the selection consisted mostly of vegetables, fruits, berries, some shellfish and fish. The unexpected was the number of different foods under 100 calories - almost 300 of them. There was also one important conclusion: plain water is the only truly zero calorie food. Everything else contains some energy, though it might be very low, it still is more than zero.

The main content area displays a text block: "The ChatGPT plugin now allows users to generate images based on the selected te It provides a seamless and intuitive experience for visual content creation." Below this text is a colorful, abstract image generated by ChatGPT, featuring a mix of red, yellow, blue, and white pixels.

Overlaid on the bottom right is a "ChatGPT" window. It has a title bar with "ChatGPT" and a close button. The window contains a text input field with the text "The best open source and collaborative document editor". Below the input field is a text area containing the following text:

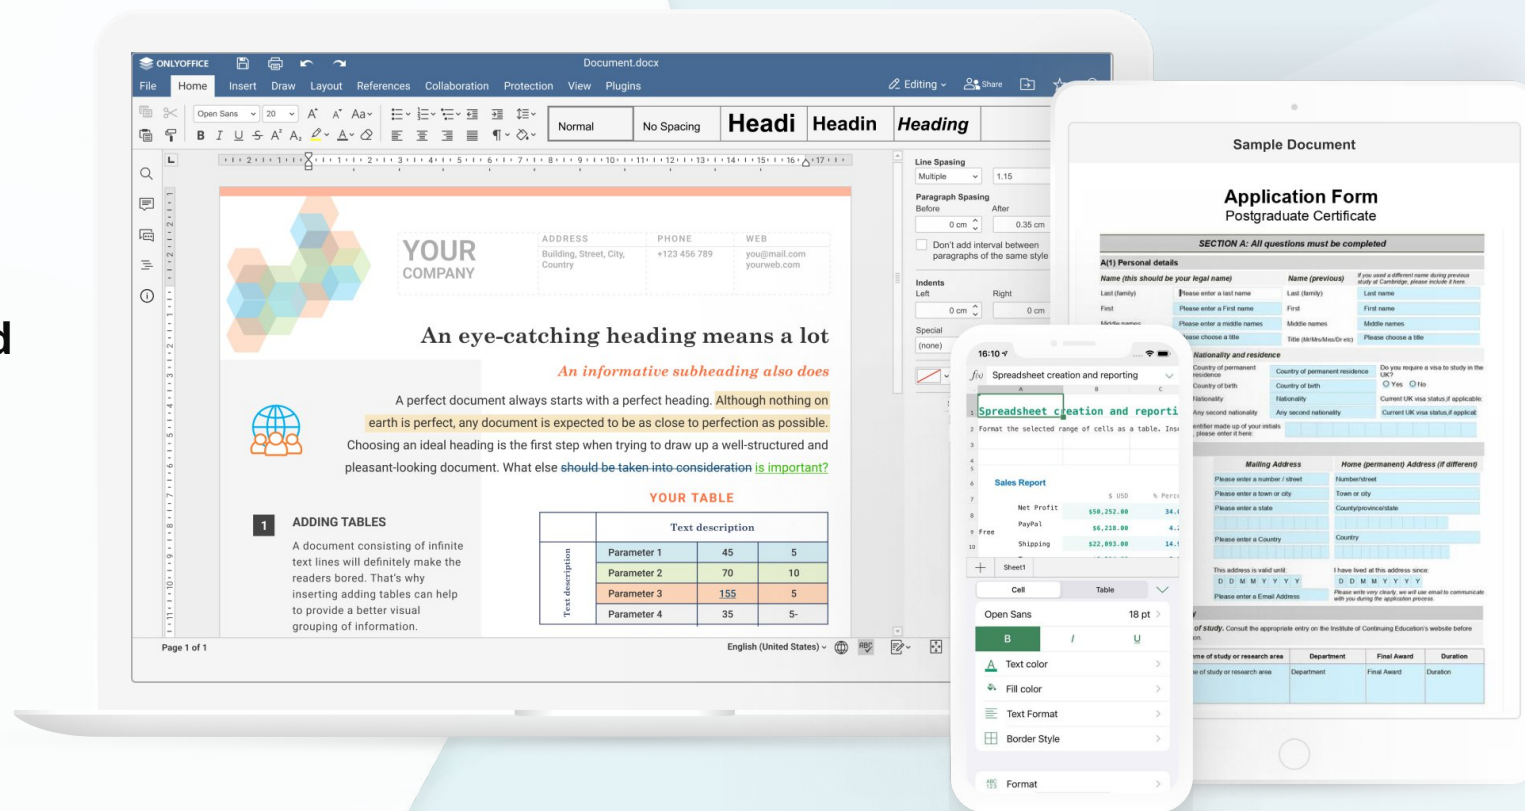

There are several open-source and collaborative document editors available, each with its own set of features and benefits. It ultimately depends on your specific needs and preferences.

1. Google Docs: While not fully open-source, Google Docs is a widely used collaborative document editor that allows multiple users to work on a document simultaneously.
2. OnlyOffice: OnlyOffice is an open-source office suite with a collaborative document editor. It provides a familiar interface, supports various document formats, and allows real-time collaboration with other users.

At the bottom right of the ChatGPT window, it shows "Tokens in the request about: 0" and "Total tokens are used in last request: 165". There is also an empty text input field at the bottom of the window.

Encryption at rest

Breach of data at rest is one of the most significant risks for organizations within their infrastructures. When you store company and your users, you need to ensure that the data is encrypted using a strong encryption type of encryption (such as HMAC-SHA256) of the entire body of the document. ONLYOFFICE instance uses AES-256 encryption type with a symmetric algorithm to ensure the integrity and confidentiality of the data.

Češka televizija zamenila je Google Docs i MS Office sa ONLYOFFICE i ownCloud-om

Šárka Francová, šef promocije i marketinga u Češkoj televiziji:

"Naš cilj je delimično ukidanje pretplate na Google i prelazak korisnika kojima nije potrebna puna funkcionalnost Microsoft Office-a na ONLYOFFICE. Uz ONLYOFFICE, zaposleni u Češkoj televiziji mogu uređivati dokumente direktno u pregledaču na svim uređajima."

Iskustva klijenata

Javni radio i televizija Nemačke uveli Nextcloud i ONLYOFFICE

IVZ je 2018. godine implementirao ONLYOFFICE kako bi omogućio online saradnju na dokumentima za različite timove u TV i radio stanicama. Ugrađene funkcije za kolaborativno uređivanje i četovanje se često koriste, a korisnici su vrlo zadovoljni aplikacijom. Prednost je što ONLYOFFICE izgleda vrlo slično Microsoft Office-u, što olakšava migraciju.
